

## **HRsmart and VMN+ Partner to expand IT Offerings**

### **Partnership to provide complete IT Outsourcing capability**

*March 1, 2011 – USA and Argentina* – HRsmart International opened a new division via a joint-venture with VMN+, headquartered in Argentina. The partnership will provide companies a professional and high quality choice in the international IT outsourcing market.

With a track record spanning all around the globe, profound domain expertise, and over two hundred employees, VMN+'s offerings will complement HRsmart's long experience dealing with multi-cultural, geographically diversified teams, and proven success worldwide. With over thirty combined years of experience in the IT and HR technology industries, HRsmart and VMN+ will expand their offerings to provide companies with access to world class IT teams, solutions, talents and skills.

“The goal of aiding clients in reducing their costs and improving productivity through IT outsourcing is the vision of this partnership,” said Paul Fonolla, President of HRsmart. “With the combined experiences of HRsmart and VMN+, we are providing an unmatched level of IT outsourcing to more companies in North America.”

VMN+'s area of expertise includes highly professional Agile Custom Software Development, IT professional services, Staff Augmentation, Cross-Platform Integration, Project Management , Software Maintenance, Code Reviews and Software Migration.

“The strategic partnership with HRsmart will provide VMN+ the opportunity to expand its IT offerings in the North-American market,” said Juan Pablo Villa, Director of VMN+. “HRsmart is a trusted and valued leader that has proven success with over 1,000 clients worldwide. We look forward to the combined partnership and providing companies with the highest quality, affordable and unparalleled IT outsourcing services.”
